

FY 2003-05 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Access Management	X153	X153

This is the Department's share of funding for highway improvement projects advanced as a result of development and redevelopment. These funds are to be used when the fair share financial contributions obtained from a developer pursuant to N.J.S.A. 27:7-91h are insufficient to implement the improvement. These improvements will encourage economic development and help create jobs.

Statewide	EC	STATE	\$500,000	\$500,000	\$500,000		
Statewide	EC	TBD				\$500,000	\$500,000

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Access Permit Application Review	X166	X166

The Department of Transportation has traditionally used consultants to assist in the review of access applications and on occasion to participate in the permit process to a greater extent. The Department has insufficient personnel to perform all of the work required within the time frames established by the Commissioner, law, and regulation. The timely issuance of access permits helps the State's economy by saving developers' carrying costs.

Advance Technology Emissions Reduction Program	02355	02355

Executive Order #94 established the Advanced Technology Task Force to define and assist in the implementation of initiatives to increase use of clean fuel and vehicle technologies. The Task Force is chaired by the Commissioner of Transportation, and its members are other state agencies. This program will collect data and match CNG vehicle usage with alternative fuel sources, as well as to expand efforts to use hybrid electric vehicles. The program will initiate, but will not be limited to: maximizing the use of bio-diesel fuel; providing for safety upgrades at state garages; introducing education programs to promote usage of clean fuels and repairs to environmental friendly vehicles; providing funding for incremental cost of advanced technology and alternative fuel vehicles; quantifying the diesel emission savings from the usage of bio-diesel for use in New Jersey MPO air quality conformity modeling.

Philadelphia Regional Integrated Multi-modal Information Sharing

This three-phase project implements a concept to provide a framework for institutional coordination of ITS in the Delaware Valley. This framework provides the regions stakeholders opportunities to share and disseminate information on travel conditions and coordinate the regional deployment of ITS systems in the region. In the first phase, DVRPC will establish and provide staff support for a formal ITS committee composed of the regions ITS stakeholders and will apply a proactive approach to improving the information flow between agencies. Phase II represents a concept that utilizes and focuses the I-95 Corridor Coalition's Information Exchange Network to facilities communications using a computer message/digital message system to notify agencies about incidents or unusual conditions that affect them.

FY 2003-05 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
TRANSMIT Program	00376	00376

TRANSCOM, a multi-agency coalition of operating transportation agencies in the metropolitan New York area, is deploying an Automatic Vehicle Identification (AVI) system, known as TRANSMIT, for traffic management and surveillance applications. TRANSMIT offers the ability to use vehicles equipped with EZ-Pass transponders to serve as vehicle probes within the traffic stream for traffic surveillance purposes. It requires the installation of readers (small 3-foot antennae) with the capability of identifying the vehicles equipped with EZ-Pass transponders, and measuring travel speeds at periodic intervals along the roadway.

Phase I and II were previously installed on major highways, mainly within New York state, through federal earmark money, and has successfully provided a surveillance system capable of detecting incidents. Phase III expands the system in New Jersey along Route 287, the New Jersey Turnpike, and the Garden State Parkway. The benefits of the system include the ability to track incidents for quick response, and provide real-time information to travelers over variable message signs and various media sources.

The FY 2002 federal appropriations provides \$2,500,000 from Intelligent Transportation Systems funds for this project.

FY 2003-05 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Whistle Ban Demonstration Program	01328	013280

Public Law 1999, Chapter 430 (Legislation A2386) requires the Commissioner of Transportation to proceed with a pilot demonstration program implementing the use of potential supplementary safety measures in anticipation of the adoption of federal regulations regarding the use of locomotive horns at highway/rail grade crossings. This demonstration project will encompass a maximum of ten locations. This program will include collection of "before" data, meeting with local officials and railroad officials, prepare final design plans, construct supplementary safety measures, collect "after" data to perform comparison of "before" and "after" conditions, evaluate effectiveness of supplementary safety measures.
